## PROFILE

Results-driven Digital Product Owner with 2+ years of experience owning digital product lifecycles from discovery to market release. Proven ability to launch live digital products, drive measurable customer journey improvements, and lead cross-functional Agile delivery. Deep domain expertise in Motor insurance combined with a strong analytical foundation in Management Information Systems.

## EXPERIENCE

**Al Rajhi Takaful** Oct 2025 – Present

**Digital Enablement Sr. Analyst Motor Product Owner**

- Directed end-to-end digital product lifecycle for 4 Motor insurance lines (TPL, Comprehensive, Smart, SME) owning the product roadmap, reviewing BRDs, writing user stories and acceptance criteria, and ensuring stakeholder alignment before development.
- Redesigned a Motor policy self-service journey, reducing service options by 67% to eliminate customer friction and improve digital usability. (Live)
- Spearheading end-to-end redesign of the Motor Claims tracking journey on the mobile app mapping flows in Miro and validating UI/UX designs in Figma. (In Progress)
- Managed the Motor insurance sales journey on a messaging platform resolving live issues, driving iterative enhancements, and negotiating Change Requests with the vendor. (Live)
- Championed the integration of Motor insurance sales into a major digital platform to expand reach and support customer acquisition. (In Development)
- Defined product requirements for an express Motor purchase journey and a telematics program, translating complex business rules into actionable digital product scope. (In Progress / In Development)
- Delivered a multi-product website revamp across Motor and General insurance lines, coordinating content review, issue resolution, and cross-functional delivery. (Live)
- Facilitated Agile delivery by coordinating across IT, developers, solution architects, PMO, QA, UX, and Business Analysts using Jira and MS Project conducting UAT, making go/no-go release decisions, and resolving production issues proactively.

**Digital Enablement Analyst Motor Product Owner** Jul 2025 – Oct 2025

- Executed Motor product ownership responsibilities managing product scope, prioritizing backlog in Jira, and coordinating cross-functional teams to deliver live digital enhancement projects.
- Diagnosed and resolved a critical customer-facing visibility issue, restoring service continuity and preventing further disruption to live Motor digital services.

**Graduate Development Program – Digital Track** Jul 2024 – Jul 2025

- Completed 4 structured rotations across Motor Underwriting, RPA, Digital Channels, and Product Owner gaining end-to-end exposure to the Motor insurance product lifecycle.
- Motor Underwriting: analyzed underwriting rules, pricing logic, and policy schedule processes across Motor product lines to support business decision-making.
- Digital Channels: executed UAT for Motor and General insurance products during the first website revamp, validating developed outputs against requirements before go-live.
- RPA: engineered and deployed 2 end-to-end automation workflows using UiPath, converting manual processes into bot sequences and reducing operational effort.

**Business Schema Trading Company (BST)** Apr 2024 – Jul 2024

**Geographic Specialist**

- Maintained data accuracy and prepared monthly progress reports for the Etimad platform.

**Project Coordinator** Jan 2024 – Apr 2024

- Improved process efficiency by 15% through workflow analysis and boosted team productivity by 20% through structured KPI audits.

## EDUCATION & CERTIFICATION

**King Abdulaziz University** Jeddah, Saudi Arabia

**Bachelor of Science – Management Information Systems**

Jul 2023

- Senior Project: Led full SDLC for Raa Bakery Information System, planning, UI/UX design, database management, and Flutter development.

**Insurance Foundations Professional (IFCE)** Nov 2024
